

# HERON HILL WINERY

## Dedicated to excellence in winemaking in the Finger Lakes region since 1977

To learn more about Heron Hill wines visit us and taste our full portfolio of wines at both of our locations.

## Sustainably Produced and Bottled with Solar Energy

We are in the midst of a green revolution. To owner John Ingle, going green means giving respect. Respect for the land by farming sustainably. Most importantly it means respect for the consumer by giving them our very best product and by educating them about Heron Hill's long-term goals of environmental balance.

Cases Produced: 472

### Vineyard Notes

Appellation: Finger Lakes

Grapes sourced from Morris Vineyards on the east side of Seneca Lake, Doyle Vineyards on the west side of Seneca lake, and Hosmer Vineyards on the Cayuga Lake.

### Fermentation

Each component of this blend was fermented and aged separately in stainless steel tanks to let each varietal express itself.

### Tasting Notes

A tropical style of wine with intense aromatics of pineapple, guava, nectarine, peach and floral notes. The palate is medium to full with great acidity holding it together, yet still showing an abundance of fruit primarily pineapple and stone fruit with a bit of minerality showing on the long finish.

### Food Pairing Suggestions

An exciting wine from a very ripe vintage, very approachable and enjoyed anytime. Pair with mixed lettuce salad and grilled chicken, seared fillet of rockfish or on its own while making dinner with great conversation.
